Dear Team Leader,

I am writing to provide an update on the progress of our group project. So far, we have completed the initial research and divided the work among the team members. We have also started working on our respective sections and are making steady progress.

One of the challenges we faced was coordinating everyone's schedules and collecting the required information on time. However, we are working together to resolve these issues and keep the project on track.

We expect to complete the project by **2/10/2026**. We will ensure all sections are completed and reviewed before the final submission.

Thank you.

Yours sincerely,
G Laxmi Narashimha
